2023 pricing guide

www.paramonovamovies.com

Hi, I’m Stas.

In the last 7 years, I have taken photos of 350 weddings and events all over the world. In my job, I, first of all, pay attention to naturalness and details. Also, an important thing for me is blurring the boundaries between the artistic and documentary footage which enables me to show timeless meaning of a photo focused on the beauty of the couple, the atmosphere of the dinner and convey all the genuine emotions on the day of the event.

In my approach, interweaving of classical style in combination with fashion is equally important. Fashion has always played a big role in my life, so many of my couples say that my photos look like covers from fashion magazines.

My experience allows me to successfully combine these two directions and delight my couples with warm and modern shots throughout many years.
